STING - Stockholm Innovation & Growth

Incubators: STING is one example for incubators to help companies with innovative ideas to become successful. Often these incubators are located in connection to Research Centres/universities and help to create companies from ideas out of the research performed there.

STING as an incubator has a number of tools to help companies: [Startup](#), [Business Lab](#), [Business Accelerator](#) and [Go Global Medtech](#)

Forska & Vax (Research & Grow)

Research&Grow is a financing tool to support R&D in SMEs. There are three different types of projects that are supported: R&D projects, Pre-studies and Needs analysis

Demo Environment

The aim of the programme is to give around 40 of Sida 's partner countries in Africa, Asia, Latin America, Eastern Europe and Central Europe the opportunity of using proven modern environmental technology solutions that are new to their country.

CAPACITIES- Research for the benefit of SMEs

Research for SMEs' supports innovative SMEs to solve common or complementary technological problems. Projects must be centred on the innovation needs of the SMEs which outsource research to RTD performers and must demonstrate a clear exploitation potential for the SMEs concerned.

'Research for SMEs' is a bottom-up scheme: the projects may address any research topic across the entire field of science and technology².

Miljödrivna marknader (Environmentally-driven markets)

Aims to strengthen SME competitiveness, business and sales within environmentally driven markets by:

- Development of company networks and meeting places
- Consulting within environmentally driven business development
- Development of common system solutions
- Coordination and support for procurement

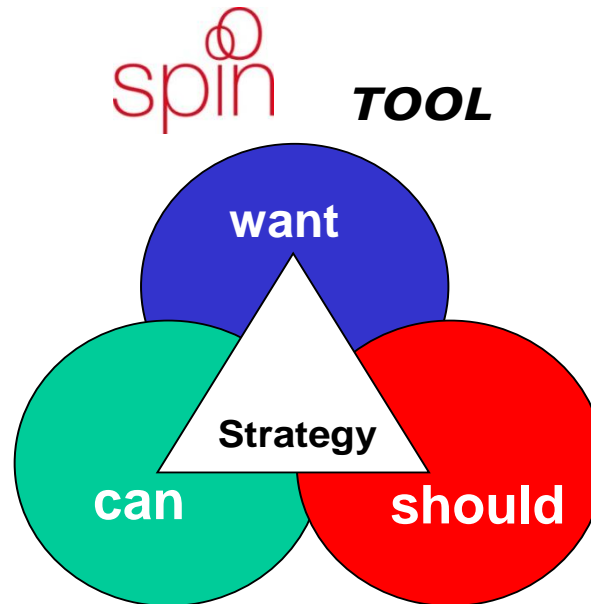

OMS - Competition analysis for SMEs

Business analysis for sustainable and successful business development in SME

The tool is used to facilitate business analysis in SMEs including environmental aspects and effectiveness. Usage of the tool: work through the PPT presentation, i.e. slide by slide or paper by paper. When identifying trends and own resources, all sustainability aspects (environment and social aspects) are taken into account.

Evenemang: Internationellt VIP-möte för svenska miljöteknikföretag, 15 december

I december samlar Handelskamrarna representanter från ambassader från närmare 30 utvecklings-och tillväxtländer, från hela världen.

Asien, Afrika, Sydamerika, CIS, österuropa, och Balkan.

Ambassaderna och handelskontoren är sina regeringars förlängda arm och letar efter svenska företag som kan leverera små och stora lösningar inom miljöteknik till sina respektive länder.

Vi arrangerar detta för att svenska företag inom miljöteknik ska kunna få en möjlighet att träffa dem på en och samma dag, och skapa kontakter för framtida affärer och samarbete.

Datum: 15 december 09.30-16.30

Plats: Stockholms Handelskammare, Västra trädgårdsgatan 9, Stockholm

Anmälan: max.lundgren@chamber.se senast den 7 december

08-555 100 00
